Claude Boiron, Broker, Author, Investor, Educator

Claude will speak about the Real Estate Market in the GTA. Over the past decade you have probably read about several "market bubbles", over supply of new condo units, and that the tide will turn. He will explore what is true, and what is just media hype. Should you own your home or rent it? Should you own Real Estate as an investment? Should you use leverage to buy Real Estate, or are lenders and mortgages just out to grab your money? Come and hear Claude Boiron speak on these topics - with a glass of wine in hand!

Amato De Civita, Business Somellier

Amato De Civita is the President of Wine Awakenings - a market leader in the field of wine education and creators of wine-themed corporate gifting. He is also co-founder and Principle of JTX Inc. Journey to Excellence - a prominent business advisory firm renowned for practical business consulting.
